

Level – 1 Recovery – Complete these items upon declaration of ALL CLEAR.

1. Monitor local media broadcasts and official JSC emergency information sources to determine when employee Return to Work instructions will be issued (Management).
2. Verify with the JSC Hurricane Command Post whether the Center is safe for reentry and determine the status of organizational facilities. Damage assessment information may not be available for several hours after the storm threat is terminated and some damaged facilities may not be able to be repaired or restored for safe occupancy.
3. Review contingency plans to determine when the Center will be opened, which facilities will be safe for occupancy and when designated organizational employees will be recalled to assist with internal damage assessments. Full employee recall will be predicated on the availability of a safe, secure and accessible workplace. (Management working with the HRT)
4. Recall employees. Employees should monitor official channels and local media to determine when the ALL CLEAR has been issued and when to Return to Work. (Management).
